

GEBERIT CONCEALED  
CISTERNS

# COVERT AFFAIRS

DESIGN  
MEETS  
FUNCTION

# WHERE TWO WORLDS CONNECT

When you trigger an actuator plate you push the point where design meets function. Behind every Geberit actuator plate you find a Geberit concealed cistern. Find out more about their fields of application, advantages and technical details.

## CONTENT

<b>GEBERIT ACTUATOR PLATES OVERVIEW</b>	<b>06</b>
What you see is what you get. The Geberit actuators are the only part of the concealed cisterns that you see and touch several times a day. Find the applications and an overview.	
<b>INTRODUCTION TO THE GEBERIT CONCEALED CISTERNS</b>	<b>25</b>
There is a long history behind the Geberit concealed cisterns. Find out more about the background and the advantages.	
<b>GEBERIT SIGMA CONCEALED CISTERNS</b>	<b>29</b>
Geberit Sigma concealed cisterns offer solutions for high-height applications that embrace front actuation, showcasing a range of design possibilities.	
<b>GEBERIT OMEGA CONCEALED CISTERNS</b>	<b>35</b>
Geberit Omega concealed cisterns inspire innovation for low height applications, perfect for both front and top actuation solutions.	
<b>GEBERIT ALPHA CONCEALED CISTERNS</b>	<b>39</b>
Geberit Alpha concealed cisterns provide solutions for both high and low height applications, seamlessly designed for front and top actuation.	
<b>TECHNICAL INFORMATION</b>	<b>43</b>
When do you install which concealed cistern?	
<b>OVERVIEW OF ALL CONCEALED CISTERNS</b>	<b>45</b>

GEBERIT SIGMA40 / TYPE 40 ACTUATOR PLATE

# FINISHED TO MATCH

Bring bathroom concepts to life without compromises. With flush plates in round or square shapes, for WCs or urinals and with manual or touchless urinal actuation, sanitary engineers, plumbers and showroom consultants have the perfect package for their projects. The large selection of customised surface finishes is matched to the ranges of bathroom taps and accessories from major manufacturers, making it easy to create harmonious bathrooms with impressive aesthetics, technology and functionality.

Harmonious look: wall-mounted tap and Geberit Type 40 urinal plates in matching finish.

## CUSTOMISED PLATE SURFACES

Typ 40 round (touchless)

## CONSISTENT BY DESIGN

The Type 40 urinal actuators are also available in all customised colours and surfaces, perfectly matched to the aesthetics of the Sigma40 flush plates. Whether customers choose round or square buttons or covers, pneumatic or touchless, the plates blend seamlessly into high-quality bathroom concepts and allow consistent design without any compromises.

Sigma40 can be matched to the surface finish of lots of taps from well-known manufacturers.

GEBERIT ACTUATORS FOR EVERY APPLICATION

# TRIGGER POINTS

The Geberit actuator plates not only come in a large variety of designs, but also for every application. Be it at home, in a semi-public place like a hospital, or in a public place with a high traffic like e.g. an airport: there is an actuator plate for every requirement.

## FEEL AT HOME

For the bathroom at home all options are available: there is a vast variety of designs to choose from, single flush, dual flush or stop-and-go flush. Even touchless solutions might be interesting, depending on your needs and bathroom design.

## SEMI-PUBLIC SOLUTIONS

For hotels, restaurants or hospitals there are a lot of touchless actuators available that even offer a dual flush system, helping you saving water. Of course all aspects of hygienic requirements are covered.

## HIGH-TRAFFIC PUBLIC PLACES

If you run a public toilet at a train station, an airport or in a night-club, you go for the vandal-proof actuators made of stainless steel. The infrared steered actuators that offer a single flush, cleaning automatically after every use, should also be in the centre of attention.

GEBERIT CONCEALED SOLUTIONS

# THE TRADITION OF HIDING CISTERNS

In solid and drywall construction, the Geberit concealed cistern is the heart of more than 70 million concealed installations in the bathroom or WC. Every detail of this product is ingenious and has been proven a million times over. Plumbers and end users have trusted the one-piece leak-proof cisterns from Geberit for more than 60 years.

>60  
Years

#### EVENTFUL HISTORY

Geberit has more than 60 years experience in the field of concealed cisterns. Since 1964 Geberit is working on product improvement and has constantly developed the quality and functionality of the cisterns.

70  
Mio

#### TRIED AND TRUSTED

The Geberit concealed cisterns have been installed worldwide, more than 70 million times.

#### BEAUTIFUL DESIGN

A concealed solution with a wall-hung WC and beautiful actuator plates offers a lot of design options for your bathroom.

#### INNOVATIVE AND FUNCTIONAL DESIGN

Actuator plates are available in an easy-to-clean coated option, in a vandal-proof, screwable version and almost all Sigma actuator plates can be combined with an odour extraction unit.

#### WITHSTANDING HEAVY LOAD

The Geberit wall-hung solutions are designed and tested to withstand weights of 400 kg.

#### SAVING WATER

The water consumption can be sustainably reduced with a Geberit dual flush actuation for the WC.

#### OPENING SPACE

As soon as the sanitary technology hides behind the wall, a new feeling of space is created. A wall-hung solution offers more freedom in your bathroom.

#### EASY TO CLEAN

The fewer edges, joints and corners, the simpler to clean and more hygienic.

#### PREMIUM QUALITY

All products from Geberit are known for their very high reliability and durability. Proven Swiss technology for decades.

#### LEAKPROOF

Every single cistern one-piece blow-mould is tested on its leak-tightness before it is leaving the factory.

#### 50 YEARS SPARE PARTS AVAILABILITY

Geberit guarantees 50 years spare parts availability.

#### DIGITAL HELPERS

Easy planning with Geberit BIM data and ProPlanner. Recognising older products with the Pro App and directly ordeDesign Rings spare parts.

#### INSTALLATION SYSTEMS

Available for all Geberit Duofix installation systems.

#### ELECTRIC CONNECTION

The cisterns are prepared for a hidden or visible electric connection in case you want to upgrade your WC.

#### GEBERIT AQUACLEAN SHOWER TOILETS

Perfectly prepared for the installation of Geberit shower toilets with innovative comfort functions.

#### HYDRAULIC KNOW-HOW

Optimised hydraulics for a perfect wash-out of Geberit WC ceramics, with water-saving flushing.

REASONS FOR WALL-HUNG CONCEALED SOLUTIONS

# THE CONCEALED ADVANTAGES

## SUSTAINABLE

A wall-hung solution needs much less cleaning agent than a floor-standing toilet. You are saving money and you are protecting the environment.

## HYGIENIC

A floor-standing toilet with an exposed cistern offers much more space that has to be cleaned than a wall-hung concealed solution. The latter has far less corners or edges where dirt, dust and hair can get stuck. Germs have nowhere to hide.

## TIME-SAVING

More hygienic does not mean that you need more time for cleaning the bathroom. On the contrary: with a wall-hung solution you clean the toilet much faster.

## CONCLUSION

Saving material and time for cleaning means: you save money. Especially in public and semi-public areas like hotels or office buildings this is important.

GEBERIT SIGMA CISTERNS

# TOUCHING DESIGN

## STYLISH CALLING CARDS

The Geberit Sigma concealed cisterns not only offer numerous installation possibilities, but also the widest range of stylish actuator plates. Be it for dual flush or stop-and-go flush, mechanical or touchless actuation.

Sigma40 square red gold / red gold brushed (art.no. 115.629.QB.1)

Sigma50 round black chrome / concrete (art.no. 115.651.JV.1)

Sigma80 square black glass (art.no. 116.090.SG.6)

Geberit ONE WC ceramic, Geberit Sigma50 square actuator plate, Geberit wall drain

## FUNCTIONAL BEAUTY

With Geberit Sigma cisterns not only style moves into your bathroom, but also functionality. With a prewall construction you gain space for cosmetics or other bathroom items. Another possibility to give your bathroom a personal touch.

**STATE-OF-THE-ART DESIGN**

The Geberit Sigma concealed cisterns offer solutions to almost every building situation and to every design idea. Thus, it is possible to create extraordinary bathroom looks that meet all the requirements and expectations.

Geberit ONE WC ceramic, Geberit Sigma70 square actuator plate, Geberit ONE washbasin and furniture, Geberit Option Plus mirror, Geberit ONE wall-mounted tap

GEBERIT SIGMA UPGRADES

# ADD THE ELEMENT AIR

## GEBERIT DUOFRESH

What is standard in kitchens should also be introduced to bathrooms. The Geberit DuoFresh module provides a slot for a ceramic honeycomb filter and an orientation light that is triggered by a motion sensor. The module is easily installed and can be equipped with almost any actuator plate from the Sigma range.

↑  
It's as simple as this:  
Just open the actuator plate at the side.

↑  
Insert the filter in the slot.

↑  
Close the actuator plate and enjoy the fresh air in your bathroom.

↑  
Geberit Smyle WC ceramic, Geberit actuator plate Sigma50 square with DuoFresh module\*.

Geberit DuoFresh removes unpleasant odours right at the source. A ceramic comb filter purifies the air thoroughly and a fan conveys the cleaned air back into the room. An additional benefit offers a built-in LED orientation light. Just below the actuator plate a soft glow will guide you the way to the WC at night.

### ACCESSIBLE

The ceramic honeycomb filter can be easily accessed via the actuator plate.

### VISIBLE

An orientation light helps you at night to find your way.

### EFFICIENT

The air is purified by the ceramic honeycomb filter.

### QUIET

A quiet fan conveys the purified air back into the room.

\* Refer to page 15 for article number

## GEBERIT SIGMA SPECIAL SOLUTIONS

# EASILY ACCESSIBLE

The Geberit installation elements offer solutions to almost any construction situation. In public areas, in healthcare, in hotels or even in private bathrooms the request for barrierfree applications can be covered with the Geberit Duofix element with a Sigma cistern and various WC ceramics with an extra long projection.

↑  
224.224.00.1  
Geberit Duofix element for a barrier-free solution.

↑  
111.790.00.2  
Geberit Duofix element with mounting plate for support handles.

↑  
Another special feature of the Geberit concealed cisterns is the tool-free maintenance.

# GEBERIT OMEGA CISTERNS SMALL AND POWERFUL

**FREEDOM OF PLACE**  
If you want to have a clean front view,  
Geberit Omega cisterns can be  
activated from the top.

Geberit Selnova WC ceramic with extra long projection, Geberit actuator plate Sigma10, round Geberit Option mirror, Geberit Selnova Comfort washbasin, Geberit trap and shower drain.

## SMALL ACTUATORS

Beautifully designed small, elegant actuator plates: Omega20 round, Omega30 square and the surface-even Omega60 square. Available in different styles and high-end materials.

Omega20 round black matt coated / black (art.no. 115.085.16.1)

Omega20 square matt chrome / bright chrome (art.no. 115.080.JQ.1)

Omega60 square white glass (art.no. 115.081.SI.1)

The Geberit Omega concealed cisterns are designed for low-height situations. But it is also a good choice if you just prefer a smaller size of the actuator plate.

Geberit AquaClean Mera,  
Geberit Omega60 square actuator plate,  
front actuation with standard height,  
Geberit CleanLine60.

GEBERIT OMEGA CISTERNS FOR LOW HEIGHTS

# SOLUTION PROVIDER IN NARROW SPOTS

Geberit Omega opens up unexpected opportunities when it comes to the design of your bathroom. Having the freedom of choice to install a top or a front actuation, there are no borders anymore to your creativity in bathroom design and the implementation of your ideas. Bottle-necks such as installations under windows and roof-pitches are elegantly mastered.

## CISTERN HEIGHTS

The Geberit Omega concealed cistern can be installed from height of 82 cm. No matter what installation height: the flush performance is outstanding. All the Omega cisterns come with a water-saving dual flush system.

## FIT FOR ALMOST EVERY PREWALL

With a minimum depth of 12 to 14 cm for the front actuation (depending on the chosen element) and a minimum depth of 17 cm for the top actuation, the Geberit Omega concealed cistern fits into nearly any prewall. It can be connected to the water supply from the rear as well as from the side. Installing the cistern and mounting the actuator plate can both be completed without special tools.

**TOP OR FRONT - THAT IS THE QUESTION**

Depending on the construction situation, the actuator plate can be installed on the top or front of the cistern. Whatever your bathroom looks like, you have the choice. The Omega cisterns are designed in such a way that both options can be chosen freely.

**TOOL-FREE MAINTENANCE**

The Geberit Omega cisterns can be serviced without tools. This makes maintenance easy.

**OPTIONS WITH GEBERIT OMEGA CONCEALED CISTERNS:**

	for solid wall	for drywall	GIS compatible	barrier-free solution	front actuation	top actuation	low-height	tool-free maintenance	odour extraction	AquaClean connection
Geberit Sigma	x	x	x	x	x			x	x	x
<b>Geberit Omega</b>	<b>x</b>	<b>x</b>	<b>x</b>		<b>x</b>	<b>x</b>	<b>x</b>	<b>x</b>		<b>x</b>
Geberit Alpha	x	x			x	x	x			

GEBERIT ALPHA CISTERNS

**STRIKING SIMPLICITY**

Geberit Alpha concealed cisterns are offering a reduced scope of options but are nonetheless standing for high quality and reliability. The cisterns can be installed in either brick walls or drywalls. For standard bathroom requirements the perfect match.

Geberit Alpha actuator plates come in four designs in five different finishes. They are all made of high quality plastic.

Alpha25 round white alpine (art.no. 115.040.11.5)

Alpha01 square bright chrome (art.no. 115.055.21.1)

Alpha25 square matt chrome (art.no. 115.045.46.5)

Alpha50 square black (art.no. 115.060.DW.1)

Geberit Alpha50 square actuator plate, Geberit Smyle WC, Geberit Smyle furniture, Geberit Smyle washbasin, Geberit Option mirror.

## GEBERIT ALPHA CISTERNS

# THE NEXT GENERATION

Geberit Alpha concealed cisterns cover all needs for all sorts of installation situations. Be it narrow walls, low heights or standard applications. The cisterns and frames have been improved and the application fields have been widened.

**TWO CISTERN HEIGHTS**  
The Geberit Alpha concealed cistern can be installed at a height of 82 cm and 112 cm. All the Alpha cisterns come with a water-saving dual flush system.

# CONCEALED CISTERNS OVERVIEW AT ONE **GLANCE**

### TOP OR FRONT ACTUATION

For low heights there is the option of choosing top actuation.

### OPTIONS WITH GEBERIT ALPHA CONCEALED CISTERNS:

	for solid wall	for drywall	GIS compatible	barrier-free solution	front actuation	top actuation	low-height	tool-free maintenance	odour extraction	AquaClean connection
Geberit Sigma	X	X	X	X	X			X	X	X
Geberit Omega	X	X	X		X	X	X	X		X
<b>Geberit Alpha</b>	X	X			X	X	X			

←  
**12 CM CISTERN-THICKNESS**  
In the wall or in front of the wall. Flushing actuation from the front. Choose either Sigma, Omega or Alpha 12 cm.

←  
**LOW-HEIGHT SITUATIONS**  
Solution for low-height installation with element heights 82 cm, choose either Omega or Alpha.

Whether it be under windows or sloping roofs, in a corner or on a free-standing wall, systems and products from Geberit give you practically unlimited possibilities. Installations behind the wall lend elegance and increased space; part-height prewall installations offer additional storage possibilities.

### SOLID WALL INSTALLATION

Geberit naked concealed cisterns are exclusively suitable for solid construction. They must be fastened in front of or inside a solid wall and then subsequently brick lined.

### DRYWALL INSTALLATION

Geberit Duofix installation elements are suitable for all drywall construction situations with a drywall system. It is possible to create complete room-height prewalls or partition walls.
